UNDERSTANDING THE HEALTHY KIDS COLORADO SURVEY REPORTS

Background

The [Healthy Kids Colorado Survey](#) (HKCS) collects anonymous health information from middle and high school students throughout the state. The HKCS is conducted during odd-numbered years, most recently in the fall of 2019. More than 100,000 students in over 500 middle and high schools participated in the fall 2019 survey. The questionnaire measures a wide range of health behaviors and outcomes that affect the health of young people including: physical activity, nutrition, health care, bullying, mental health, tobacco and substance use, sexual health (high school only), and family and school protective factors. The HKCS is informed by the Colorado Departments of Public Health and Environment (CDPHE), Education (CDE) Human Services (CDHS), and Public Safety (CDPS). The survey is administered by Colorado School of Public Health (CSPH) at the University of Colorado Anschutz Medical Campus.

Questionnaire, Parental Consent, and Survey Administration

The majority of the HKCS questions are drawn from the Centers for Disease Control and Prevention (CDC) Youth Risk Behavior Surveillance System, the nation's largest adolescent health survey which has been ongoing for more than 25 years. Other questions in the HKCS have been added with community input to meet additional data needs in Colorado.

The questionnaire is available in English and Spanish and takes about 45 minutes, or one class period to complete. Starting in 2019, students are able to complete the survey either online or by paper and pencil, depending on school or district preference. Teachers are given instructions to provide to students that emphasize the anonymous and voluntary nature of the survey. Parental consent procedures are followed according to each district's guidelines, with a minimum of two weeks notification in advance of the administration date.

There are two versions of the high school questionnaire, called "modules," that have an identical core set of 63 questions plus additional questions unique to each version. This approach allows more information to be collected while limiting the survey length. Modules A and B contain 123 and 126 questions, respectively. The modules are randomly distributed, so roughly half the students in each classroom complete Module A and half complete Module B.

The HKCS selects a sample of schools to represent the state of Colorado. The HKCS is also available to other schools at no cost. Many schools choose to participate in order to receive local data to track important health behaviors and protective factors. Within selected schools, a sample of classrooms is selected to participate in order to minimize the time commitment from schools. If a parent chooses not to allow their child to participate, or if the student declines to participate, they are asked to sit quietly at their desk and work on other school work.

EXAMPLE: How to Read a Table

A. Health behavior

B. Estimate

C. Total number of student responses

2019 HEALTHY KIDS COLORADO SURVEY RESULTS
XXX school

Number of Responses: 1737

Table 2. Percentage of students who were obese (i.e., at or above the 95th percentile for body mass index, by age and gender)

		Percentage (%) ^a	95% Confidence Interval
Total		12.2	(10.0 - 14.3)
Sex	Female	8.4	(6.1 - 10.8)
	Male	15.6	(12.4 - 18.7)

D. 95% confidence interval

A. Health behavior includes the table number and a description of the behavior being reported.

B. Estimate or Percentage: Percentage of students who reported a given behavior or answer. A period (.) appears whenever results meet the suppression criteria and are not shown to protect student confidentiality.

C. Total number of student responses: The number of students in the school or district who answered the question being reported. Some students may have chosen to skip some questions, for a variety of reasons.

D. 95% confidence interval: These numbers define the range that most likely contains the true percentage for your school or district. These intervals are also called “margins of error” and indicate the precision of the estimate – a larger range indicates less precision, a smaller range indicates more precision.

Key Definitions

Weighting: The results in the current report are adjusted (“weighted”) so that the answers can represent all students in your school or district. The process of weighting takes into account each participating student’s probability of selection and matches the participant group to the total enrollment by grade, sex, and race/ethnicity.

Response rate: Response rate is the total number of students who participated in the survey divided by the number of students randomly chosen to take the survey. Generally, the higher the response rate, the more confidence that the survey results reflect the student population. Student response rates of 80% or higher are very desirable and increase confidence that the results are representative of the entire student population.

Confidentiality: In order to protect confidentiality, student responses are not released if they might allow someone to identify individual students. A period (.) appears whenever results meet certain suppression criteria used to maintain confidentiality. Our suppression criteria include results of 0% or 100%; results where the numerator has fewer than 3 students (e.g., the number of students who answered ‘yes’), or the number in the denominator is 30 or fewer (e.g., the number of students who answered the question).

Considerations When Using the Report

The results of your school or district can be compared to the state or regional estimates (to be released in the Summer of 2020). When comparing a school or district estimate to a regional or state estimate, examine the 95% confidence intervals. If they overlap, there is no scientific evidence to believe the estimates are different. If they do not overlap, there is high confidence that the estimates are different (“statistically significant”). For statistically significant differences, judgment is needed to decide whether the size of the difference is meaningful and important.

Technical Assistance

The HKCS team at the Colorado School of Public Health (CSPH) can help you:

- **Understand your report.** We are happy to meet or talk with you about any aspect of your report including understanding the nuts and bolts to identifying the most important indicators.
- **Conduct additional and customized analysis of your data.** We are happy to talk with you about custom analysis. Please note that additional analysis can sometimes be limited based on the sample size. As a general rule of thumb, if there are fewer than 100 respondents, there is a limited number of categories that can be used to look at results. Several hundred respondents are typically necessary for estimates with smaller subgroups. Therefore, custom analysis may be possible with district-level data but not always with school-level data.
- **Prepare a presentation of the data.** We can create a customized Power Point presentation according to your needs.
- **Present or co-present your data.** We are available to travel to your location or be available by webinar/teleconference.

For further assistance please contact the Healthy Kids Colorado Survey team at hkcs@ucdenver.edu.

TABLE OF CONTENTS

Introduction

Background.....	i
Questionnaire, Parent Consent, and Survey Administration Background	i
EXAMPLE: How to Read a Table	ii
Key Definitions	ii
Technical Assistance.....	iii

Demographics

Table 1. School Demographics	1
------------------------------------	---

Body Weight

Table 2. Percentage of students who were obese (i.e., at or above the 95 th percentile for body mass index, by age and gender)	2
Table 3. Percentage of students who were overweight (i.e., at or above the 85 th percentile but below the 95 th percentile for body mass index, by age and gender)	3
Table 4. Percentage of students who were overweight or obese (i.e., at or above the 85 th percentile for body mass index, by age and gender).....	4
Table 5. Percentage of students who were underweight (i.e., below the 5 th percentile for body mass index, by age and gender).....	5

Physical Activity and Sedentary Behavior

Table 6. Percentage of students who were physically active for a total of at least 60 minutes per day on five or more of the past 7 days	6
Table 7. Percentage of students who could walk or ride a bike to a bike, scooter, or skateboard to school if they wanted to.....	7
Table 8. Percentage of students who walk or ride a bike to school one or more days in an average week.....	8
Table 9. Percentage of students who attended physical education (PE) classes on one or more days in an average week	9
Table 10. Percentages of students who played on one or more sports teams during the past 12 months	10
Table 11. Percentage of students who has a concussion in the past 12 months from playing sports or being physically active.....	11
Table 12. Percentage of students who hardly ever or never silence, put away, or turn off their phone when doing homework	12
Table 13. Among students who play video games or use a computer for something other than school work, percentage who did so for two or more hours on an average school day.....	13
Table 14. Among students who use social media, percentage who check social media once or twice an hour or more.....	14
Table 15. Among students who use social media, percentage who report it makes them feel sometimes or usually worse.....	15

Nutrition

Table 16. Percentage of students who drank 100% fruit juice one or more times per day in the past seven days.....	16
Table 17. Percentage of students who drank a can, bottle, or glass of soda or pop one or more times per day in the past seven days	17
Table 18. Percentage of students who drank a sports drink, energy drink, or other sweetened beverages one or more times in the past 7 days.....	18
Table 19. Percentage of students who ate fruit one or more times per day in the past seven days	19
Table 20. Percentage of students who ate green salad one or more times per day in the past seven days	20
Table 21. Percentage of students who ate potatoes one or more times per day in the past seven days	21
Table 22. Percentage of students who ate carrots ones or more times per day in the past seven days	22
Table 23. Percentage of students who ate other vegetables (not including salad, potatoes, or carrots) one or more times per day in the past seven days	23
Table 24. Percentage of student who ate breakfast on all of the past seven days	24
Table 25. Percentage of students who went hungry in the past 30 days sometimes, most of the time, or always because of a lack of food at home.....	25

Bullying

Table 26. Percentage of students who had ever been electronically bullied during the past 12 months.....	26
Table 27. Percentage of students who have ever been bullied on school property during the past 12 months.....	27
Table 28. Among students bullied on school property, the percentage who were bullied in a classroom	28
Table 29. Among students bullied on school property, the percentage who were bullied in a hallway or stairwell.....	29
Table 30. Among students bullied on school property, the percentage who were bullied in a locker room or bathroom	30
Table 31. Among students bullied on school property, the percentage who were bullied in a cafeteria or lunch room	31
Table 32. Among students bullied on school property, the percentage who were bullied on a bus or at a bus stop	32
Table 33. Among students bullied on school property, the percentage who were bullied outside before school.....	33
Table 34. Among students bullied on school property, the percentage who were bullied outside after school.....	34
Table 35. Among students bullied on school property, the percentage who were bullied outside during lunch or break	35
Table 36. Among students who were teased in the past 12 months, the percent who were teased because of sexual orientation	36
Table 37. Among students who were teased in the past 12 months, the percentage who were teased because of gender identity	37
Table 38. Among students who were teased in the past 12 months, the percentage who were teased because of religion.....	38
Table 39. Among students who were teased in the past 12 months, the percentage who were teased because of a disability.....	39
Table 40. Among students who were teased in the past 12 months, the percentage who were teased because of physical appearance	40
Table 41. Among students who were teased in the past 12 months, the percentage who were teased because of race or ethnicity	41

Violence

Table 42. Percentage of students who did not go to school on one or more of the past 30 days because they felt they would be unsafe at school or on their way to or from school.....	42
Table 43. Percentage of students who were in a physical fight one or more time during the past 12 months.....	43
Table 44. Percentage of students who have made sexual comments, jokes, gestures or looks at someone when unwanted.....	44
Table 45. Among students who dated or went out with someone during the past 12 months, the percentage who had been physically hurt on purpose by someone they were dating or going out with one or more times.....	45
Table 46. Percentage of students who has ever been physically forced to have sexual intercourse when they did not want to.....	46
Table 47. Percentage of students who touched, grabbed or pinched someone in a sexual way when unwanted	47
Table 48. Percentage of students who could easily/sort of easily get a gun	48

Mental Health

Table 49. Percentage of students who felt sad or hopeless almost every day for two weeks or more in a row during the past 12 months that they stopped doing some usual activities	49
Table 50. Percentage of students who purposefully hurt themselves without wanting to die in the past 12 months	50
Table 51. Percentage of students who seriously considered attempting suicide during the past 12 months.....	51
Table 52. Percentage of students who made a plan about how they would attempt suicide during the past 12 months.....	52
Table 53. Percentage of students who attempted suicide one or more times during the past 12 months.....	53
Table 54. Percentage of students who have an adult to go to help with a serious problem	54

Safety

Table 55. Percentage of students who never or rarely wore a seat belt when riding in a car driven by someone else	55
Table 56. Percentage of students who rode one or more times during the past 30 days in a car or other vehicle driven by someone who had been drinking alcohol	56
Table 57. Among students who drove a car or other vehicle during the past 30 days, the percentage who drove when they had been drinking alcohol one or more times	57
Table 58. Percentage of students who rode one or more times during the past 30 days in a car or other vehicle driven by someone who had been using marijuana	58
Table 59. Among students who drove a car or other vehicle during the past 30 days, the percentage who drove when they had been using marijuana one of more times	59

Table 60. Among students who drove a car or other vehicle during the past 30 days, the percentage who texted or e-mailed while driving on one or more of the days	60
---	----

Tobacco

Table 61. Percentage of students who have ever smoked a cigarette, even one or two puffs.....	61
Table 62. Percentage of students who smoke a cigarette, even one or two puffs, for the first time before age 13.....	62
Table 63. Percentage of students who smoked cigarettes on one or more of the past 30 days	63
Table 64. Percentage of students who smoked cigarettes on 20 or more days of the past 30 days	64
Table 65. Among students who smoked in the past 30 days, the percentage who smoked menthol cigarettes	65
Table 66. Percentage of students who would definitely or probably smoke a cigarette offered by one of their best friends.....	66
Table 67. Percentage of students who think they would definitely or probably smoke a cigarette in the next year.....	67
Table 68. Percentage of students who think it would be sort of easy or very easy to get cigarettes if they wanted.....	68
Table 69. Among underage students who smoked cigarettes in the past 30 days, the percentage who bought them from a store (convenience, supermarket, discount, gas station).....	69
Table 70. Among students who reported current cigarette use, the percentage who ever tried to quit smoking cigarettes during the past 12 months.....	70
Table 71. Percentage of students who think people who smoke one or more packs of cigarettes per day have a moderate or great risk of harm	71
Table 72. Percentage of students who think it is wrong/very wrong for someone the same age to smoke cigarettes	72
Table 73. Percentage of students who think adults in their neighborhood think it is wrong or very wrong for kids to smoke cigarettes	73
Table 74. Percentage of students who have used cigars, chewing tobacco, hookah or bidis in the past 30 days.....	74

Vapor Products

Table 75. Percentage of students who have ever used an electronic vapor product	75
Table 76. Among students who have used vapor products, the percentage who tried it for the first time before age 13.....	76
Table 77. Percentage of students who used an electronic vapor product in the past 30 days	77
Table 78. Among students who have used vapor products in the past 30 days, the percentage that used products with pre-filled pods	78
Table 79. Among students who have used vapor products, the percentage who used them because friend(s) or family used them	79
Table 80. Among students who have used vapor products, the percentage who used them because they were trying to quit other tobacco products.....	80
Table 81. Among students who have used vapor products, the percentage who used them because they cost less than other tobacco products	81
Table 82. Among students who have used vapor products, the percentage who used them because it is easier to get them than other tobacco products	82
Table 83. Among students who have used vapor products, the percentage who used them because they are less harmful than other tobacco products..	83

Table 84. Among students who have used vapor products, the percentage who used them because they are flavored	84
Table 85. Among students who have used vapor products, the percentage who used them because they are allowed in areas where other tobacco products are not.....	85
Table 86. Percentage of students who would definitely or probably use an electronic vapor product if offered by one of their best friends	86
Table 87. Percentage of students who definitely or probably will use an electronic vapor product anytime in the next year.....	87
Table 88. Percentage of students who feel it would be sort of easy or very easy to get electronic vapor products if they wanted	88
Table 89. Among underage student who used electronic vapor products in the past 30 days, the percentage who bought them in a store	89
Table 90. Among underage students who used electronic vapor products in the past 30 days, the percentage who got them on the internet	90
Table 91. Among underage students who used electronic vapor products in the past 30 days, the percentage who gave someone else money to buy them	91
Table 92. Among underage students who used electronic vapor products in the past 30 days, the percentage who borrowed them from someone else ..	92
Table 93. Among underage students who used electronic vapor products in the past 30 days, the percentage who were given them by a person who can legally buy them	93
Table 94. Among underage students who used electronic vapor products in the past 30 days, the percentage who stole them	94
Table 95. Among those underage students who tried to buy tobacco or vaping products in a store, the percent who were not refused because of age....	95
Table 96. Among students who used electronic vapor products in the past 30 days, the percentage who sometimes, often, or always had intolerable cravings after a few hours.....	96
Table 97. Among students who used electronic vapor products in the past 30 days, the percentage who often or always reached for them without thinking about it	97
Table 98. Among students who used electronic vapor products in the past 30 days, the percentage who tried to quit in the past 12 months	98
Table 99. Percentage of students who think people who use electronic vapor products every day have a moderate or great risk of harm.....	99
Table 100. Percentage of students who think 5 or more out of every 10 students at school use electronic vapor products.....	100
Table 100. Percentage of students who think it is wrong or very wrong for someone of the same age to use electronic vapor products.....	101
Table 102. Percentage of students who think most adults in their neighborhood think kids using electronic vapor products is wrong or very wrong	102
Table 103. Percentage of students who think parents or guardians would feel it is wrong or very wrong for you to use electronic vapor products	103
Table 104. Percentage of students who think breathing second hand vapor has a moderate or great risk	104
Table 105. Percentage of students who have seen ads for electronic vapor products in the past 30 days.....	105
Table 106. Percentage of students who were inside their home while someone was smoking a cigarette, cigar, pipe, or using an electronic vapor product for one or more days in the past 7 days.....	106

Table 107. Percentage of students who were inside their car while their parents or guardian was smoking a cigarette, cigar, pipe, or using an electronic vapor product for one or more days in the past 7 days.....	107
---	-----

Alcohol

Table 108. Percentage of students who have ever had a drink of alcohol other than a few sips	108
Table 109. Percentage of students who had their first drink of alcohol, other than a few sips, before age 13	109
Table 110. Percentage of students who had at least one drink of alcohol on one or more of the past 30 days	110
Table 111. Among students who drank alcohol during the past 30 days, the percentage who had 3 or more drinks in a row within a couple of hours	111
Table 112. Percentage of students who binge drank (4+ drinks for females, 5+ drinks for males, within a couple of hours) on one or more of the past 30 days	112
Table 113. Among students who reported current alcohol use, the percentage who usually got the alcohol they drank from someone who gave it to them during the past 30 days	113
Table 114. Among students who reported current alcohol use, the percentage who usually drank in a public setting, on school property, or riding in a car ..	114
Table 115. Percentage of students who feel it would be sort of easy or very easy to get alcohol if they wanted	115
Table 116. Percentage of students who thought 5 or more out of every 10 students in the same grade had 5 or more drinks on at least one day in the past 30 days	116
Table 117. Percentage of students who think people who have one or two drinks nearly every day have moderate or great risk of harm	117
Table 118. Percentage of students who think it is wrong or very wrong for someone the same age to drink alcohol regularly (at least once or twice per month).....	118
Table 119. Percentage of students who think their parents or guardians would feel it is wrong or very wrong if they drank alcohol regularly (at least once or twice per month)	119
Table 120. Percentage of students who said their parents or guardians would catch them if they drank beer, wine or hard liquor without permission ..	120
Table 121. Percentage of students who think adults (over 21) in their neighborhood think it is wrong/very wrong for kids to drink alcohol	121
Table 122. Percentage of students who think police would catch kids drinking alcohol in the neighborhood	122

Marijuana

Table 123. Percentage of students who used marijuana one or more times during their life	123
Table 124. Percentage of students who tried marijuana for the first time before age 13	124
Table 125. Percentage of students who used marijuana one or more times during the past 30 days	125
Table 126. Among students who used marijuana in the past 30 days, the percentage who smoked it.....	126

Table 127. Among students who used marijuana in the past 30 days, the percentage who ate it.....	127
Table 128. Among students who used marijuana in the past 30 days, the percentage who vaporized it.....	128
Table 129. Among students who used marijuana in the past 30 days, the percentage who dabbed it.....	129
Table 130. Among students who used marijuana in the past 30 days, the percentage that usually smoked it	130
Table 131. Among students who used marijuana in the past 30 days, the percentage that usually got it from an adult.....	131
Table 132. Percentage of students who feel it would be sort of easy or very easy to get marijuana if they wanted	132
Table 133. Percentage of students who thought 5 or more out of every 10 students in their grade used marijuana in the past 30 days.....	133
Table 134. Percentage of students who think people who use marijuana regularly have moderate or great risk of harm	134
Table 135. Percentage of students who think it is wrong or very wrong for someone of the same age to use marijuana	135
Table 136. Percentage of students who think their parents or guardians feel it is wrong or very wrong if they used marijuana	136
Table 137. Percentage of students who think adults (over 21) in their neighborhood think it is wrong or very wrong for kids to use marijuana	137
Table 138. Percentage of students who think police would catch kids using marijuana in their neighborhood	138

Other Drugs

Table 139. Percentage of students who have taken prescription pain medicine without a doctor's prescription one or more time during their life	139
Table 140. Percentage of students who took prescription pain medicine without a doctor's prescription one or more times in the past 30 days	140
Table 141. Percentage of students who think it is sort of or very easy to get prescription drugs without a prescription	141
Table 142. Percentage of students who think it is wrong or very wrong to use prescription drugs without a prescription	142
Table 143. Percentage of students who sniffed glue, breathed the contents of aerosol spray cans, or inhaled any paints or sprays to get high one or more time in their life	143
Table 144. Percentage of students who used any form of cocaine one or more times during their life.....	144
Table 145. Percentage of students who used ecstasy one or more time during their life	145
Table 146. Percentage of students who used heroin one or more times during their life.....	146
Table 147. Percentage of students who used methamphetamines one or more times during their life.....	147
Table 148. Percentage of students who feel it would be sort of easy or very easy to get drugs like cocaine, LSD, or amphetamines if they wanted.....	148
Table 149. Percentage of students who think it is wrong or very wrong to use LSD, cocaine, amphetamines or other illegal drugs.....	149
Table 150. Percentage of students who were offered, sold, or given an illegal drug on school property during the past 12 months	150

Sexual Health

Table 151. Percentage of students who have ever had sexual intercourse	151
--	-----

Table 152. Percentage of students who had sexual intercourse for the first time before the age 13	152
Table 153. Percentage of students who have had sexual intercourse with four or more people during their life	153
Table 154. Percentage of students who have had sexual intercourse with one or more people during the past three months.....	154
Table 155. Among students who had sexual intercourse during the past three months, the percentage who drank alcohol or used drugs before the last sexual intercourse	155
Table 156. Among students who had sexual intercourse during the past three months, the percentage who used a condom during the last sexual intercourse	156
Table 157. Among students who had sexual intercourse during the past three months, the percentage who used birth control pill to prevent pregnancy before the last sexual intercourse.....	157
Table 158. Among students who has sexual intercourse during the past three months, the percentage who used any form of birth control to prevent pregnancy before the last sexual intercourse.....	158

Healthcare

Table 159. Percentage of students who had ever been told by a doctor or nurse that they had asthma.....	159
Table 160. Percentage of students who sleep eight or more hours per night on average school nights.....	160
Table 161. Percentage of students who have experienced problems with their mouth or teeth in the past 12 months, not including braces or injuries ..	161

School

Table 162. Percentage of students who described their grades as mostly A's or B's over the past 12 months	162
Table 163. Percentage of students who think their grades are better than most students in class	163
Table 164. Percentage of students who feel school work/assignments are often or almost always important and meaningful	164
Table 165 Percentage of students who think the things they are learning in school are going to be important for later in life	165
Table 166. Percentage of students who think most of their classes are fairly/quite/very interesting and stimulating	166
Table 167. Percentage of students who skipped one or more whole days of school during the past four weeks	167
Table 168. Percentage of students who think their school lets their parents or guardians know when they have done something well.....	168
Table 169. Percentage of students who think their teacher notices when they do a good job and lets them know about it	169
Table 170. Percentage of students who think their teacher will praise them when they work hard in school	170
Table 171. Percentage of students who often tried to do their best work in school over the last year.....	171
Table 172. Percentage of students who often enjoyed being in school over the last year	172
Table 173. Percentage of students who often or almost always hated being in school over the last year.....	173
Table 174. Percentage of students who feel safe at school.....	174

Table 175. Percentage of students who used alcohol or drugs before or during school once a week or more	175
Table 176. Percentage of students who participate in extracurricular activities at school.....	176
Table 177. Percentage of students who participated in organized community service as a non-paid volunteer one or more times during the past 30 days	177
Table 178. Percentage of students who think it is important to go to college, technical or vocational school.....	178

Home Life

Table 179. Percentage of students who usually slept somewhere other than their home during the past 30 days	179
Table 180. Percentage of students who have chances to do fun things with their parents or guardians.....	180
Table 181. Percentage of students who have parents or guardians who ask student what they think before most family decisions	181
Table 182. Percentage of students who feel the rules in their family are clear	182
Table 183. Percentage of students who think their family has clear rules about alcohol and drug use	183
Table 184. Percentage of student who would ask their parents or guardians for help with a personal problem	184
Table 185. Percentage of students who have parents or guardians that ask if their homework is done.....	185
Table 186. Percentage of students who have parents or guardians who know where they are and who they are with when not at home	186
Table 187. Percentage of students who have parents or guardians who know they are not home on time.....	187
Table 188. Percentage of students who think they would be caught by their parents or guardians for skipping school	188
Table 189. Percentage of students who talked with parents or guardians about the dangers of tobacco, alcohol, or drug use during the past 12 months	189

2019 HEALTHY KIDS COLORADO SURVEY RESULTS

Eagle County

Student Response Rate = 85.9%

Table 1. Sample Demographics

Demographic	Number	Number/Total Sample
Total	2102	100%
Female	988	47.8%
Male	1081	52.2%
9th Grade	556	26.7%
10th Grade	573	27.6%
11th Grade	511	24.6%
12th Grade	439	21.1%
Hispanic	910	44.4%
White	1039	50.7%
